SPACE & EXPLORATION

The Moonlanding (1969)

Apollo 11 was the spaceflight that landed the first two people on the moon—Neil Armstrong and Buzz Aldrin. It landed on 20 July 1969. They are both American. Neil Armstrong was the first to walk on the moon, with Buzz Aldrin following him.

Tim Peake was the first British ESA (European Space Agency) astronaut and was the second astronaut to bear a flag of the United Kingdom patch, after Helen Sharman who was the first British astronaut and first woman to visit the Mir Space Station in 1991.

Armstrong's first step onto the lunar surface was broadcast on live TV to a worldwide audience. He described the event as "one small step for man, one giant leap for mankind" - this quote is used in James Redwood's song 'One Small Step'.
